## SPAIN PREPARES FOR DEFENCE.

Madrid, June 26.—The arrival of the Spanish Rest at Port Said causes no surprise here, Adrifral Camara having announced that he was going to the Philippines.

In view of the threat of the American Government to attack the Spanish coast, the Government deems it advisable to be prepared for even unlitles. A third squadron is preparing for the tefence of the coast. A member of the Cabinet t an interview to-day said:

Let then come. We will receive them as they deserve."

At the bottom of these hills run two roads along which Lieutenant-Colonel Roosevelt's men and eight troops of the 1st and 10th Cavalry, with a battery of four howitzers, advanced. These roads are but little more than gullies, passable. In these trails the fight occurred.

Nearly a mile separated Roosevelt's men from the Regulars, and between them and on both sides of the road in the thick underbrush was concealed a force of Spanlards that must have been large, judging from the terrific and constant fire they poured in on the Americans.

The fight was opened by the 1st and 10th Cavalry under General Young. A force of Spaniards was known to be in the vicinity of La Quasina, and early in the morning Lieutenant-Colonel Roosevelt's men started off up the precipitous bluff back of Siboney to attack the Spaniards on their right flank, General Young at the time taking the road at the foot of the hill.

About two and a half miles out from Siboney some Cubans, breathless and excited, rushed up with the announcement that the Spaniards were
